Assessment and certification standards.

In this document

01 Management

Use this document with its stated edition. Applications and enquiries: contact@greatentity.com. Certificate verification: verify@greatentity.com. Certification follows an assessment and an authorized decision.

Management

Connect strategic priorities with accountable execution.

Module scope

A defined enterprise-management function or organization-wide management scope, with boundaries made explicit.

Required application across five dimensions

L: trace objectives to accountability and resources. P: verify the management information chain from source to decision. S: examine internal management services and handoffs. B: include teams and stakeholders affected by management decisions. I: check whether recurring review findings are resolved.

Required evidence

Strategy and operating plan; responsibility matrix; resource reviews; indicator dictionary; management minutes and actions; internal service records; stakeholder feedback; completed improvement cycles.

Coverage and decision rule

Apply the common GEEF evidence period, record sampling, beneficiary-feedback protocol, scoring rubric, and mandatory gates. Record the module mapping in the evidence register. Unavailable required evidence must be resolved or the assessment deferred; it must not be silently omitted.

Certification wording

Use "Great Entity for Management" only for a valid certificate that names the assessed entity, activities, locations, and GEEF version. The category name alone must not imply endorsement of activities beyond the certificate scope.
